2023 - 2024 REPORT

ABOUT TED:

With a mission to spread thought provoking ideas that spark conversations, TED has been creating a cultural impact that pushes the pursuit of knowledge across several communities. Speakers at TED conferences have been fostering and creating awareness through short, but powerful talks on several ideas from diverse fields including art, science, technology, innovation and discovery.

ABOUT TEDx and TEDxGRIET:

TEDx events are conducted in collaboration between an independent organization and TED. TEDx brings the spirit of TED to local communities around the globe through TEDx events. These events are organized by passionate individuals who seek to uncover new ideas and to share the latest research in their local areas that spark conversations in their communities. TEDxGRIET has been bringing the spirit of TED to our community in Hyderabad since 2018. Through this event, speakers have been presenting ideas that push the boundaries of convention and spark curiosity in listeners.

Uncovering the beginning of TEDxGRIET's 5th Season:

Hi Thanay,

Thank you for your response and for providing this additional information about your event!

We are pleased to inform you that **your application for TEDxGRIET has been approved!** You should receive a separate license confirmation email which will provide more information and resources.

Firstly, as the talk about credibility addresses subjects that can still be sensitive to some audiences, I would like to introduce you to Shyam Sundar (cc'd), a TEDx Ambassador and organizer of TEDxNapierBridge. As an experienced and trusted licensee, Shyam can offer insight regarding the talk about credibility. We encourage you to reach out to Shyam and discuss the idea further to ensure it would comply with our guidelines. Shyam, thank you for your continued support of the TEDx community!

Secondly, while the proposed topics sound interesting, we encourage you to be mindful of the overall balance of the program, including a wide-range of ideas. Please continue to diversify the list of proposed talk ideas.

A good example of a diverse and idea-driven lineup can be seen in this TEDGlobal 2009 program. Note how the talks vary in subject – music, science, biodiversity, industrial design, and food! Many organizers have also found it helpful to watch June Cohen's talk, 'What makes a great TED Talk? to learn more about identifying ideas worth spreading.
