

**Gokaraju Rangaraju Institute of Engineering and Technology
(Autonomous)**

Internal Quality Assurance Cell (IQAC)

GRIET/IQAC/G/25-26

Audit Date: 25/8/25

**DEPARTMENT ACADEMIC AND ADMINISTRATIVE AUDIT
(Academic Year: 2024-25)**

1. Name of the Department to be Audited: CSE(AIML) Department

2. Programs Offered:

| | UG | | PG |
|-----------------------|---------------|-------------|-----------|
| Name of the Program | B. Tech(AIML) | B. Tech(AI) | -- |
| Year of establishment | 2020 | 2022 | -- |

3. No. of Faculty & Students:

| Designation | UG (AIML) | UG (AI) | PG |
|-----------------------|------------------|----------------|-------------|
| Professors | 01 | 00 | -- |
| Associate Professors | 04 | 01 | -- |
| Assistant Professors | 29 | 02 | -- |
| Total no. of Students | | | |
| | No. of Boys | No. of Girls | No. of Boys |
| | 630 | 325 | |

4. Faculty Information and Contributions

4.1 Name of the Program(s): AIML, AI

| Total Faculty | | |
|-------------------|------|----|
| Required Faculty | AIML | AI |
| Available Faculty | 34 | 03 |
| No. of PhDs | 05 | 01 |

| Professors | | |
|-------------------|------|----|
| Required Faculty | AIML | AI |
| Available Faculty | 01 | - |
| No. of PhDs | 01 | - |

| Associate Professors | | |
|----------------------|------|----|
| Required Faculty | AIML | AI |
| Available Faculty | 04 | - |
| No. of PhDs | 04 | - |

| Assistant Professors | | |
|----------------------|------|----|
| Required Faculty | AIML | AI |
| Available Faculty | 29 | 03 |
| No. of PhDs | 05 | 01 |

$$\text{Faculty Qualification} = \frac{\text{Total Number of Faculty with PhD in the Department}}{\text{Total Number of Faculty Available}} \times 100 = 5/34 = 15\%$$

AIML = 15%

AI = 1/3 = 33%

$$\text{Student Faculty Ratio (SFR): } \frac{\text{Total Number of Students (UG & PG) in the Department}}{\text{Total Number of Faculty Available in the Department}} = 642/34 = 18.9\%$$

AI = 71/3 = 23.7%

4.2 Faculty Publications

Overview on Faculty Contribution and Development:

Significant number of research papers published by the faculty in various International Conferences /articles and patents. Faculty Feedback is very good and Faculty upskilled themselves through NPTEL certification exams. Faculty organized and participated in FDPs and Workshops to explore and acquire skills in latest technologies.

Overview on Students Progression:

Academic Performance of students is good, and students participated in various kinds of workshops, seminars, field trips to explore latest skills and knowledge. Significant number of students got placement in MNCs. NPTEL, Infosys springboard, Cisco and few more certifications done by the students. And research activities should improve further apart from academics.

Overview on Academic Activities:

The department conducted Expert Talks, Guest Lectures, Workshops, Seminars, Value Added Courses, NPTEL certifications, FDPs. Academic activities conducted in the department are appreciable.

Suggestions for the areas of improvement:

Faculty can upskill themselves by attending various workshops / short term training sessions in industry. Industry collaborated practical sessions need to encourage in the department.

Overview on Faculty Contribution and Development:

In A.Y 2024-25 Faculty contributed 3 SCI journals and 100+ Scopus indexed publications through conferences. Two staff members completed NPTEL courses in Computer oriented subjects and one staff member ratified for computer department after getting required certification courses in computer oriented courses through NPTEL. All staff members attended two or three FDPs in Core topics. Rs.30 Lakhs earned under consultancy works. During this academic year one IPR published by one of our staff. Total Fifty Eight articles Scopus Indexed published by our department staff members. Total seven VACs were taken for development of Civil Engineering department.

Overview on Students Progression:

All IV B.Tech II semester students were published Scopus Index conference papers from their Major Project works. A Value Added Course named Sketch up and V-Ray software

Training by CANTER CADD, Hyderabad taken for III B.Tech students for knowledge gain in preparation of building drawings and useful for their mini projects. Some more VACs were taken for our Civil Engineering students to complete their mini, major and Real Time Research Projects

Overview on Academic Activities:

By doing valuable courses their not only employability will increase but also self-employment for students. In this view different VACs were introduced and organised during this Academic Year. In this concern a VAC named **Sketch up and V-Ray software Training** by CANTER CADD, Hyderabad. For enrich knowledge to our students organised 7 guest lectures, 1 webinar and 1 work shop under different professional bodies like ICI, IEI, IGBC and ACCE(I).

Suggestions for the areas of improvement:

Advised pursue funding projects from AICTE, UGC along with publish qualitative publications and to do interdisciplinary projects.

Overview on Faculty Contribution and Development:

1. Faculty are actively involved in teaching, mentoring, and curriculum delivery as per the academic plan.
2. Faculty contribute to research through publications, patents, consultancy work, and industry-oriented projects.
3. Faculty regularly attend FDPs, workshops, internships, and certification programs to update technical and teaching skills.
4. Faculty support students through project guidance, internships, placements, and organizing academic activities.

Overview on Students Progression:

1. Students show steady academic progress with good results and regular promotion to higher semesters.

2. Many students get placed in companies, pursue higher studies, and qualify in competitive examinations.
3. Students actively participate in workshops, seminars, internships, and technical events to improve skills.
4. Student participation in co-curricular activities supports overall personality and career development.

Overview on Academic Activities:

1. Academic activities are conducted as per the academic calendar for smooth teaching and learning.
2. Guest lectures, workshops, seminars, and alumni talks are organized to enhance industry exposure.
3. Value-added courses and certification programs are offered to improve technical and employability skills.
4. Faculty provide mentoring and academic support to help students improve performance.

Suggestions for the areas of improvement:

1. Increase research publications and funded projects involving both faculty and students.
2. Encourage more student participation in national-level competitions, hackathons, and innovation programs.

4.8 Faculty as Resource Persons

| S. No | Name of the Faculty | Type of Program | Lecture Topic | Duration | Organization | Place of Program |
|-------|---------------------|-----------------|---------------|----------|--------------|------------------|
| | | | | | | |

5. Students Enrollment and Progression

5.1 Number of seats filled under various quotas and quality of students

No.of students (UG):681
EAMCET starting rank:2629
EAMCET closing rank:179796

No.of students (PG):12
Gate starting rank: NIL
Gate closing rank: NIL
PGCET starting Rank:302
PGCET closing Rank:1605

5.2 Academic Performance of Students

No. of students admitted in corresponding first year (UG) and students admitted in second year through lateral entry (m) = 435
No. of students graduated from the program (n) = 399
UG Success Rate: $n/m * 100 = 91.7$

No. of students admitted in corresponding first year (PG) (m1) = 8
No. of students graduated from the program (n1) = 6
PG Success Rate: $n1/m1 * 100 = 75$

5.3 Students Placements, Higher Studies, Entrepreneurships

No. of students who are placed = 312*
No. of students went for higher studies = 21*
Highest and mean packages received by the students = 51.6 AND 4.5
No. of students with entrepreneurship details = 0
No. of students who qualified in competitive examinations (Civil Services, GATE, GMAT, CAT, GRE, TOEFL, etc.) =12

5.4 Students Activities

No. of Award Winning Students in Technical Events:95
No. of Students Participated in Technical Events: 550
No. of Students Participated in Sports / Cultural Events:45

No. of Students Participated in NSS Activities: 75

6. Curriculum Development

6.1 New Courses

UG:

No. of new courses introduced (Mention the Regulation-GR24) = 13

No. of courses with change in syllabus (if more than 20%) = 0

PG:

No. of new courses introduced (Mention the Regulation-GR24) = 13

No. of courses with change in syllabus (if more than 20%) = 0

6.2 Details of Conduction of Remedial Classes for Academically Weak Students:

Overview on Faculty Contribution and Development:

Faculty participated in FDPS, Workshops and involved in research publications.

Overview on Students Progression:

The student's performance is good.

Overview on Academic Activities:

Organized Activities on Emerging Technologies

Suggestions for the areas of improvement:

+ Suggestion to organize an International conference.

Overview on Faculty Contribution and Development:

1. Faculty actively contribute to teaching, curriculum delivery, assessment, mentoring, ensuring outcome-based education and continuous improvement.
2. Faculty demonstrate strong research orientation through publications, patents, consultancy projects, funded research, and industry collaborations.
3. Faculty enhance professional competencies by attending FDPs, workshops, certifications, programs at national and international level.
4. Faculty mentor students through academic guidance, project supervision, internships, placement support, and organizing technical activities.

Overview on Students Progression:

1. Students show good academic progress with improved results, regular attendance, and successful completion of the program.
2. Many students get placed in companies, go for higher studies, and qualify in competitive examinations.
3. Students actively participate in workshops, technical events, internships, and certification programs to improve skills.

4, Participation in sports, cultural, and co-curricular activities helps students in overall personality development

Overview on Academic Activities:

1. Academic activities are planned and conducted as per the academic calendar, ensuring smooth teaching and learning processes.
2. Guest lectures, workshops, seminars, and industry interactions are regularly organized to enhance practical knowledge.
3. Remedial classes and mentoring are provided for slow learners to improve academic performance.
4. Value-added courses and certification programs are conducted to improve students' technical and employability skills.

Suggestions for the areas of improvement:

1. Encourage more faculty and students to publish research papers in reputed journals and conferences.
2. Motivate students to participate more in national-level competitions, hackathons, and innovation challenges.

Overview on Faculty Contribution and Development:

The department has a qualified and experienced faculty team with a strong research orientation. A significant number of faculty members possess Ph.D. qualifications and have contributed through publications in reputed journals and conferences indexed in SCI, Scopus, and Web of Science. Faculty members have actively participated in FDPs, workshops, NPTEL courses, and certification programs to enhance teaching and research competencies. The department has notable achievements in patents and resource person engagements, demonstrating continuous professional development and industry-academia interaction.

Overview on Students Progression:

The department demonstrates satisfactory student progression with a good undergraduate success rate and consistent academic performance. A significant number of students have secured placements in reputed organizations, while some have opted for higher studies and competitive examinations. Students actively participate in technical events, workshops, and professional society activities, contributing to their overall skill development. Notably, students have also presented conference papers based on their project work, reflecting their involvement in research, innovation, and scholarly activities. Remedial classes, mentoring, and value-added courses have further supported academically weaker students and enhanced overall student outcomes.

Overview on Academic Activities:

The department actively organizes a wide range of academic activities, including workshops, guest lectures, industrial visits, training programs, value-added courses, and student-centric events. Curriculum enrichment is supported through remedial classes, hands-on training, industry-collaborated courses, and IEEE/NSS activities. These initiatives enhance technical skills, employability, social responsibility, and holistic development of students.

Suggestions for the areas of improvement:

- Increase faculty strength to meet required norms and improve student-faculty ratio.
- Enhance funded research projects and consultancy activities through stronger industry collaboration.
- Improve student placements by strengthening industry tie-ups, internships, and advanced skill-based training.
- Encourage more students towards higher studies, entrepreneurship, and competitive examinations.
- Introduce more interdisciplinary and emerging technology courses aligned with industry needs.

Overview on Faculty Contribution and Development:

Faculty have published papers in conferences and journals. Participated in workshops and FDPs.

Overview on Students Progression:

Students have participated in many seminars, industrial visits, workshops etc.

Overview on Academic Activities:

Result Analysis

Suggestions for the areas of improvement:

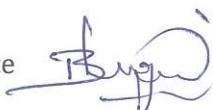

- Should improve Faculty Intellectual Property Rights (IPR)
- Should improve Faculty Publications
- Should improve faculty Research & Development
- Should improve consultancy Projects

Overview on Faculty Contribution and Development:

Faculty contribute to effective teaching- learning through outcome-based education, ICT- enabled pedagogy and continuous assessment while supporting curriculum design aligned with industry and regulatory needs.

They also promote research and innovation through projects, publications, patents and collaborations, strengthening the institution's academic profile.

Overview on Students Progression:

Students progression at the I.B.Tech level emphasizes strong engineering fundamentals, essential learning skills and a smooth transition from school to professional education through academic support, mentoring and continuous assessment.

Overview on Academic Activities:

Academic performance is enhanced through structured lectures, tutorials and labs using ICT-enabled teaching. Continuous Internal Evaluation through exams and assignments is aligned with Course Program Outcomes.

Suggestions for the areas of improvement:

1. Strengthening Outcome Based Education (OBE) Implementation.
2. Education of Teaching-Learning Practices.
3. Academic Support for Diverse Learners.

Overview on Faculty Contribution and Development:

- Faculty actively participate in FDPs, STTPs, workshops, and continuous skill development programs.
- Several faculty serve as resource persons for expert lectures in AI, ML, IoT, and related areas.
- Consistent publication output with a good number of PhD-qualified faculty.
- No patents or funded projects reported, but overall strong involvement in teaching-learning enhancement and academic contribution.

Overview on Students Progression:

- Strong placement outcomes with 112 students placed and 6 pursuing higher studies.
- Active participation in technical, cultural, sports, and NSS activities.
- Multiple student achievements in technical events.
- 100% completion in value-added courses such as Java, RDBMS, R, Linux, Git, Kotlin, and AWS.
- Overall good academic progress, skill development, and professional readiness.

Overview on Academic Activities:

- Organized multiple academic events: guest lectures, workshops, technical events, industrial visits, and alumni sessions.
- Activities covered areas like Generative AI, Cloud Computing, Agile Technologies, Cybersecurity, and Career Planning.
- Provided industrial exposure through visits such as NISA.
- Conducted remedial classes for academically weaker students.
- Offered several value-added courses in collaboration with IIT Bombay and AWS, enhancing technical skills.

Suggestions for the areas of improvement:

- Encourage faculty to initiate and apply for **funded research projects, consultancy, and patent filings** to strengthen R&D portfolios.
- Increase the number of **quality publications in SCI/Scopus indexed journals**.
- Offer more **industry-focused certification courses** aligned with emerging technologies.
- Enhance student success metrics by tracking **PG admissions, competitive exam preparation, and entrepreneurship initiatives**.
- Expand **industrial collaborations** for internships, MoUs, and real-time project exposure.
- Strengthen remedial and bridge programs to improve academic performance for weaker students.
- Improve documentation of academic activities to ensure more structured reporting during audits.
