INTRODUCTION

The Department of Basic Sciences is devoted to foster the fundamental principles and understanding of science that are capable of enhancing the human experience. The academic programs of this department are organized to meet the requirements of the fast growing technology. The Department has been there, right from the inception of the College, offering instruction in Mathematics, Physics and Chemistry to students of the various core branches of engineering.

“Delivering a transformative education is the core mission of basic science”

The department of mathematics has been training students on application software like MATHEMATICS and MATLAB. It also runs a forum “ADVANCED ACADEMIC CENTRE “ and leading resource persons visit the college under this forum.

The department is strengthened with a total of 36 faculties out of which 4 are Doctorates and 10 are pursuing PhD’s.
