5	Staff appointments made since the last meeting of the Governing Body.	It was observed that the total number of doctorates inducted is less than the total left. Department wise faculty strength was reviewed which satisfied the overall faculty / student ratios. The ongoing recruitment process was reviewed. It is suggested that efforts to recruit may be intensified to satisfy rank wise and qualifications wise recruitment. The list of selected members approved.			
6	Staff who left the institution since the last meeting of the Governing Body.	Member Secretary explained the reason for large turnover, the main reason being enforcement of superannuation policy of 65 years for those with Ph.D and 60 years for those without Ph.D. Making way for this policy of superannuation beyond 60/65 is because of need for ratification by the University and Universities reluctance to ratify beyond 60 years and the new UGC guidelines of same discipline qualifications in UG and PG. As this cannot be avoided, it is suggested that the percentage of such faculty to be kept to the barest minimum as those from industry are much discipline qualifications and the list of faculty going out approved.			
7	Review of Civil Works	<p>Member Secretary informed progress of Civil works is unsatisfactory in this year. Lifts, PG block construction, alternate road, Car parking, Indoor stadium are long awaited. Presiding Officer agreed to convince the Chairman to have a meeting specifically for civil works at Vijayawada before August 14.</p> <p>As deemed University status is being contemplated hostels /accommodation are also to be included in the master plan. It is also suggested to explore UGC assistance for stadium and hostels.</p>			
8	Review of perspective planning	It is suggested to progress the demand for University status. Members approved the plan for more NBA accreditations for 3 UG (CE, BME & BT) and 4 PG (DFM, VLSI, Power Electronics and CSE). All members expressed happiness that India is admitted as per Washington Accord which promotes mobility and quality assurance of engineers across international boundaries.			
9	Review of TEQIP-II grant utilization	Member Secretary informed timely submission of returns, procurement action plan is limited to 49 lacks for software 8 lacks for e-class room equipment and all activities like FDP, Seminars, Workshops are conducted as per TNA. State representative appreciated
