About the GRIET

Gokaraju Rangaraju Institute of Engineering and Technology (GRIET), Hyderabad was established by Gokaraju Rangaraju Educational Society in the year 1997 with a mission "to impart quality education with an emphasis on practical skills and social relevance". Ever since its inception it has been striving hard to impart quality higher education under the leadership of Sri Gokaraju Rangaraju, an entrepreneur, a philanthropist and a humanitarian who is committed to the cause of education. GRIET has earned a place among the leading technological institutions in the state. The institution has been ranked 5th among the engineering colleges in the state and 25th among the engineering colleges in the country by CSR-GHRDC Engineering Colleges Survey 2014. It has been accorded the status of autonomous institution by University Grants Commission. GRIET provides the state-of-art infrastructure and multi-speciality faculty, who continuously review, revise and experiment teaching methodologies and learning resources, and focus on research, training and consultancy through an integrated institute-industry symbiosis.

About the Department

The Department of Physics caters to the needs of B.Tech first year students both in theory and practicals. It has well qualified and experienced faculty with doctorate degrees. The faculty members are involved in research activities and published several papers in National and International journals. The major areas of research presently going on are electricity and magnetism, Luminescence and Condensed Matter Physics.
