## CIRCULAR ENGINEERS' DAY CELEBRATIONS-2016

## Sub: - Organization of Elocution, Essay Writing, Group Discussion, Five Minute Situational Skits, Listening comprehension Power Point presentation and Technical Quiz on the eve of Engineers' Day on 15<sup>th</sup> September - reg.

The Birthday of **Bharat Ratna Sir Mokshagundam Visweswaraya** on 15<sup>th</sup> September is being celebrated every year as Engineers' Day. This year the National Council of the Institutionhas selected the theme as "Skill Development for YoungEngineers to reform the Core Sector: Vision 2025". There is immense pressure in restructuring global economy by means of global flow of goods, services and knowhow, when some industries decline as well as new avenue of opportunities is created. This force in turn creates the demand for re-skilling of those redundant workforce as well as skillupgradationand training and development to promote new skills for those newly employed in newindustries. Government across the states have taken some initiatives to address the major challengeof scaling up disparate skill development initiatives ofdifferent departments. Within a short span of time of lessthan ten years, a lot of skilled manpower is needed to bedeveloped, required by the market driven approach. Therequirement of skilled manpower in all the major sectors of the country is not only a matter of **national urgency**, but also it is

Therequirement of skilled manpower in all the major sectors of the country is not only a matter of **flational urgency**, but also it is

increasing in scale. However, Government of India has set a target to impart the necessary skills to 500million people by the year

2022. The five sectors, which are identified with the expectation to create majority of employment are infrastructure,

**auto, building and construction, textiles and transportation**. Now, like other employment sectors, shortage of required skills is one of the major constraints for the engineering cadre for continuing growth of Indian economy. Different employer surveys addressed this knowledge gap and emphasize upon analysis and development of the classified skills for improved productivity. In manufacturing, IT, infrastructure and power sector, engineers play a crucial role. In different real life situations, there arises unmet demand of skilled manpower. Differentnational and international bodies have carried out surveyand analysis on this growing aspect of engineeringfraternity and expressed concerns about the skills andknowledge at all level of workforce. As per the analysis of employer's feedback, specific skills can be categorized as core employability skills, communication skills and professional skills and thus, a policy recommendation may bedrafted as follows.

1. Addressing the prime skill factors through assessments, teaching, curriculum, real life casestudy.

2. Emphasize soft skills development

3. Exercise skills in simulated environment

4. Customize courses to meet customer demand (from www.ieindia.org / IEI News -July2016)
