Organised By

DEPARTMENT OF HUMANITIES & SCIENCES

GOKARAJU RANGARAJU

INSTITUTE OF ENGINEERING AND TECHNOLOGY

(AUTONOMOUS)

Universal Human Values

At GRIET, we believe that education is not just about acquiring technical knowledge, but about shaping individuals who are responsible, ethical, and compassionate.

Since 2017, we have been implementing the Universal Human Values programme as part of our Student Induction Programme. This initiative, guided by AICTE, ensures that every student begins their journey here with a strong foundation in values and ethics.

Our goal is simple yet profound: to nurture engineers who are not only skilled professionals but also conscious citizens ready to contribute positively to society. We want you to excel in your chosen fields, but equally, we want you to carry integrity, empathy, and responsibility into everything you do.

The education imparted at GRIET is holistic. It is multi-disciplinary, value-based and designed to foster growth not only as technologists but also as responsible human beings.
