Summary of the Event	World Environment Day (WED) for encouraging awareness and action for the protection of our environment. For healthy living, environment plays an important role. It provide us air, food, etc. It is correctly said that ' the difference between animals and humans is that animals change themselves for the environment, but humans change the environment for themselves'. Environment is just like our neighbourhood, its surrounding conditions influence us and modify growth and development.

48. Boot Camp on Entrepreneurship in coordination with Nucleus Tech,T-Hub

GOKARAJU RANGARAJU
Institute of Engineering and Technology

Gokaraju Rangaraju Institute of Engineering and Technology (Autonomous), Hyderabad, established in 1997, with a mission to provide quality education with an emphasis on practical skills and social relevance. The college is UGC Autonomous institution affiliated to JNTUH, Hyderabad and is accredited by NAAC with an 'A' Grade. GRJET offers 6 B.Tech and 9 M.Tech programmes. All UG & PG programs are accredited by NBA. College has excellent infrastructure, state of the art labs, R&D activities, qualified faculty from both industry and academia create a conducive teaching learning environment.

About EDC:
EDC-GRJET was setup in the year 2005 with the vision to develop an ecosystem in the college conducive for students to explore new avenues through innovation and imagination and thereby develop products and services which are useful to the society. The mission of EDC is to increase the number of startups and to instill the ability of enterprising among students.

The Institution has created a conducive ecosystem for Innovations and Entrepreneurship by setting up EDC, E-Cell, Incubation and J-Hub and giving a special course on Entrepreneurship in association with Wadhvani Global University.

Programme objective:

In compliance with the Work Programme of EDC-GRJET, this activity aims to: i) Promote an exchange of experiences accumulated in various programmes for development of entrepreneurs; ii) Analyse the progress made on entrepreneurship at the regional level, evaluating the causes of its development; iii) Encourage business organization in sectors that represent economic and social opportunities and promote the creation, among other mechanisms in entrepreneurship, of national systems of business incubators; iv) Consider features and prospects for dynamic enterprises; v) Consider and suggest new mechanisms for financing the entrepreneurial process, such as seed capital funds, networks of angel investors and venture capital funds.

The specific objectives of this seminar are as follows:

1. Promotion of business training programmes and national incubation systems in sectors that represent economic and social opportunities in the countries of the region.
2. Conduction of a Regional Seminar-Workshop on entrepreneurship and development of projects for the creation of business incubators in the countries of the region.
3. Identification of successful institutions that promote business development programmes.
4. Dissemination of business development strategies and programmes.

Programme outcomes

At the end of the workshop students/ faculty will be able to:

- Understand the basic concepts of Entrepreneurship and its Applications to current industry.
- Gain awareness and knowledge on Entrepreneurship.
- Impart Entrepreneurial skills

Who can participate?

- Students from Engineering Colleges.
- Faculty Members from Engineering/PG Colleges.
- Technical staff from institute/ industry
- Resource Persons from Industry

Programme objective:

In compliance with the Work Programme of EDC-GRIET, this activity aims to: i) Promote an exchange of experiences accumulated in various programmes for development of entrepreneurs; ii) Analyse the progress made on entrepreneurship at the regional level, evaluating the causes of its development; iii) Encourage business organization in sectors that represent economic and social opportunities and promote the creation, among other mechanisms in entrepreneurship, of national systems of business incubators; iv) Consider features and prospects for dynamic enterprises; v) Consider and suggest new mechanisms for financing the entrepreneurial process, such as seed capital funds, networks of angel investors and venture capital funds.

The specific objectives of this seminar are as follows:

1. Promotion of business training programmes and national incubation systems in sectors that represent economic and social opportunities in the countries of the region.
2. Conduction of a Regional Seminar-Workshop on entrepreneurship and development of projects for the creation of business incubators in the countries of the region.
3. Identification of successful institutions that promote business development programmes.
4. Dissemination of business development strategies and programmes.

Programme outcomes

At the end of the workshop students/ faculty will be able to:

- Understand the basic concepts of Entrepreneurship and its Applications to current industry.
- Gain awareness and knowledge on Entrepreneurship.
- Impart Entrepreneurial skills

Who can participate?

- Students from Engineering Colleges.
- Faculty Members from Engineering/PG Colleges.
- Technical staff from institute/ industry
- Resource Persons from Industry

Summary of the Event	<p>With the increasing need of healthy lifestyle yoga started to become a part of most of the individuals routine. In Fact the world celebrates international yoga day on 21st June every year.This year Street Cause-GRIET celebrated yoga day at Zilla Parishad Unata Patashala govt school.We did the event in this school in order to build the bond we made.Also, the event helps us to have a follow-up for the previous events we did and also to spread the importance on the health benefits of yoga.The event started at 10:00 in the morning and was completed by 11:30. We had a professional yoga instructor Ms.Anjali to teach the students important aasanas and to give a speech on the importance of yoga in day to day life and the significance of International Yoga Day.</p>

85. HEALTH AND WELLNESS

Health and wellness is a process of achieving one's personal best state of mental and physical being. Eating healthy foods such as vegetables and lean protein and maintaining an active lifestyle contribute significantly to one's state of health and wellness. But developing good eating and exercise habits are just a part of the process. To achieve a full state of wellness, one must address the social, emotional, spiritual and occupational factors that contribute to one's state of being. This can often involve defining goals and making active changes in one's job, daily routine and more.

86. ADOPTING TO NEW TECHNOLOGIES

With the advent of the digital era, the last decade has seen a plethora of changes in the way the human race communicates, commutes and entertains. We have already entered the phase where engineers across industries are co-working with robots that are auto-programmed to update their intelligence by fetching live data from their environment.

In today's highly competitive and complex world, a degree in engineering no longer guarantees job security. Future engineers will require additional specialization and skills to adapt to the rapid digitization of industries.

87. PREVENTION OF SUICIDAL & DEPRESSION

Literally speaking, suicide or completed suicide is the successful act of intentionally causing one's own death. Attempted suicide is an attempt to take one's life that does not end in death, rather self-injury. Assisted suicide, a controversial topic in the medical field, is defined as an individual helping another individual in bringing about their own death by providing them with the means to carry it out or by providing advice on how to do it.

Roshni's vision is for a society in which fewer people die by suicide. Where people are able to explore and express their feelings as well as acknowledge and respect the feelings of others..

88. Independence Day

Ashray Akruti is a registered nonprofit, non-religious organization working for hearing impaired and persons with disabilities children from underprivileged backgrounds. Established in Hyderabad, Telangana in 1996, Ashray Akruti runs Special Schools with residential facilities for hearing impaired children. Ashray Akruti started with five children and now caters to the educational needs of more than 500 children. Since our inception in 1996, more than 250 hearing-impaired children have been integrated into mainstream schools, colleges and Universities. The organization has projects across health, education and livelihood to improve the lives of people with disability and marginalized sections of the society.

**GOKARAJU RANGARAJU
Institute of Engineering and Technology**

Gokaraju Rangaraju Institute of Engineering and Technology (Autonomous), Hyderabad, established in 1997, with a mission to provide quality education with an emphasis on practical skills and social relevance. The college is UGC Autonomous institution affiliated to JNTUH, Hyderabad and is accredited by NAAC with an 'A' Grade. GRIET offers 6 B.Tech and 9 M.Tech programmes. All UG & PG programs are accredited by NBA. College has excellent infrastructure, state of the art labs, R&D activities, qualified faculty from both industry and academia create a conducive teaching learning environment.

About EDC:

EDC-GRIET was setup in the year 2005 with the vision to develop an ecosystem in the college conducive for students to explore new avenues through innovation and imagination and thereby develop products and services which are useful to the society. The mission of EDC is to increase the number of startups and to instill the ability of enterprising among students.

The Institution has created a conducive ecosystem for Innovations and Entrepreneurship by setting up EDC, E-Cell, Incubation and J-Hub and giving a special course on Entrepreneurship in association with Wadhvani Global University.

Programme objective:

In compliance with the Work Programme of EDC-GRIET, this activity aims to: i) Promote an exchange of experiences accumulated in various programmes for development of entrepreneurs; ii) Analyse the progress made on entrepreneurship at the regional level, evaluating the causes of its development; iii) Encourage business organization in sectors that represent economic and social opportunities and promote the creation, among other mechanisms in entrepreneurship, of national systems of business incubators; iv) Consider features and prospects for dynamic enterprises; v) Consider and suggest new mechanisms for financing the entrepreneurial process, such as seed capital funds, networks of angel investors and venture capital funds.

The specific objectives of this seminar are as follows:

1. Promotion of business training programmes and national incubation systems in sectors that represent economic and social opportunities in the countries of the region.
2. Conduction of a Regional Seminar-Workshop on entrepreneurship and development of projects for the creation of business incubators in the countries of the region.
3. Identification of successful institutions that promote business development programmes.
4. Dissemination of business development strategies and programmes.

Programme outcomes

At the end of the workshop students/ faculty will be able to:

- Understand the basic concepts of Entrepreneurship and its Applications to current industry.
- Gain awareness and knowledge on Entrepreneurship.
- Impart Entrepreneurial skills

Who can participate?

- Students from Engineering Colleges.
- Faculty Members from Engineering/PG Colleges.
- Technical staff from institute/ industry
- Resource Persons from Industry

	50	1150			1200
Summary of the Event	GRIET has organized a workshop on “Power of Habits” Brief points are <ul style="list-style-type: none"> ● Habits emerge without our permission. Habits are so powerful because they create neurological cravings. Often, these cravings emerge so gradually that we're not really aware they exist. ● To create a new habit, put together a cue, a routine, and a reward, then cultivating a craving that drives the loop.

Summary of the Event	<p>Seventh Annual National workshop on “Sustainable Technologies in Civil Engineering : Perspectives and Strategies (STEPS-2017)” was successfully organized during 21-22 December 2017, by the Department of Civil Engineering , Centre for Water Resources Engineering and Management (CREAM) and Centre for Sustainable Technologies for Eco-Social Resilience to Global Climate Change (CST-ERG) of Gokaraju Rangaraju Institute of Engineering and Technology (GRIET),Hyderabad.Dr.Kaushal K.Garg , Senior Scientist in ICRISAT Development Centre , International Crops Research Institute for Semi Arid Tropics (ICRISAT) was the chief guest. Dr.Mohammed Hussain, Professor and Dean (Life Skills and Outreach) who was the Convener of STEPS- 2017 gave welcome address and Dr.J.N.Murthy , Principal stressed the importance of sustainable technologies in his address. There was field visit to ICRISAT at Patancheru, Hyderabad. There were altogether six expert lectures dealing with seventeen sustainable goals of United Nations to be reached by 2030(Dr.Mohd.Hussain,Professor and Dean,GRIET) , Sustainable watershed management(Dr.Kaushal .K.Garg of ICRISAT) , Sustainable physical , mental and social health practicing eight steps of Maharishi Patanjali Yoga in daily life(Dr.M.Nagalakshmi, Senior Medical Officer,Govt.Nature Cure Hospital,Begumpet) ,Green Buildings as Sustainable Construction(Ar.Srinivas Murthy of SMG Architects) , Sustainable Transportation Technologies(Dr.P. Sravana,Professor,JNTUH College of Engineering,Hyderabad) and Air pollution management for sustainable environment(Dr.T.V.B.P.S.Ramakrishna,Principal Scientist , National Environmental Engineering Research Institute –NEERI,Hyderabad Centre). Around fifty faculty and students participated in the workshop.</p>

Summary of the Event	<p>A school library plays a great role in the life of a student. It is the store house of knowledge with its books suited to the interests and aptitude of students of different age group. Here they find an environment which is conducive to the building up of habit of self-learning. The library is the center of the intellectual and social activities of school. The library has got very wholesome effect over the work of school. Habit of reading can be cultivated and reading habit in them is made firm when students get that material to read which interests them and occupies their attention. In the class room the books that are prescribed may not serve the purpose, some students may not be in a position to purchase all books that they want to read, while others may not find books that are of interest to them. That is the reason why we have taken it up as an initiative to setup a small library in the school. As the part of Build a Library event the team of Education and Orphanages of STREET CAUSE GRIET donated 113 books that included story books both in Telugu and English, English grammar books, Aptitude and General Knowledge books, a mini Encyclopedia, and other informative books. These books are made available to the students to increase their knowledge and understanding on various subjects. At the event, we requested the teachers of the school to see to it that students make proper use of these books. We also informed the students about the library that we had setup and also instructed them to make use of it for gaining out of book knowledge.</p>

120. Engineers' day-2016

According to United Nations Educational Scientific and Cultural Organisation(UNESCO) and World Health Organisation(WHO), life skills are the abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demands and challenges of everyday life. There are ten core life skills recognized. Centre for Continuous Excellence in Life skills (C.E.L) of Gokaraju Rangaraju Institute of Engineering and Technology (GRIET) created awareness and understanding about the life skills by conducting various competitions to students on the occasion of **Engineers' day 2016 (September 15)** on theme “Skill development for young engineers to reform the core sector : Vision 2025”(theme given by Institution of Engineers)

Summary of the Event	<p>Engineering is not merely knowing and being knowledgeable; engineering is not merely analysis; engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems; engineering is practicing the art of the organized forcing of technological change.</p> <p>Various competitions were also held on the occasion of United Nations International day of Peace 2016 (September 21) and United Nations International day of Nonviolence (October 2) on UN theme “Seventeen sustainable goals of United Nations to be achieved by 2030: Building Blocks for Peace”. The winners were given a book on “Seven habits of highly effective people” by Dr.Stephen R.Covey. Padmashri Dr.Shanthasinha, former Professor of University of Hyderabad and Ramon Magsaysay Awardee for Community Leadership was the Chief guest. In her address, she has exhorted students to follow the path of nonviolence as shown by Mahatma Gandhiji to face the challenges of society, as nonviolence is the silent revolutionary weapon of the courageous people .She has released a message on the occasion. Dr.Mohd.Hussain, Convener has explained the importance of MINDFULNESS for mental health.Dr.J.N.Murthy, Principal has motivated students to develop Life skills for success in both personal and professional life. Seven habits of Dr.Stephen R.Covey were presented by Dr.Mohd.Hussain on behalf of Dr.V.S.Raju,Former Director,IIT Delhi.Prof.P.S.Raju, Director was present.Dr.G.V.K.S.V.Prasad has proposed the vote of thanks.</p>

Summary of the Event	<p>Sanitation is the hygienic means of promoting health through prevention of human contact with the hazards of wastes as well as the treatment and proper disposal of sewage or wastewater. The best way that this can be done is by incorporating this in schools where this topic can be integrated along with Hygiene. The volunteers of Women Empowerment of STREET CAUSE GRIET had taken a step forward to enlighten the girls students of Madinaguda Govt School about sanitation, hygiene and child abuse. The event started at 9am, The first half of the session was organised by volunteers accompanied with yoga professional Ms.Shruthi conducted a yoga session for building stamina and asanas related to menstruation and the second half volunteers divided the students in two groups above and below 11yrs. The above 11 yrs group were explained that sanitation are to provide a healthy living environment and to provide safety, security and dignity for people when they defecate or urinate. They also discussed the physical and mental health of the girl on the onset of menstrual cycle to prepare them for their next monthly cycle. They also explained about hygiene and child abuse. They emphasized the advantages of the usage of sanitary napkins and their proper disposal. The below 11 yrs were explained that Hygiene is a set of practices performed for the preservation of health. According to the World Health Organization (WHO), "Hygiene refers to conditions and practices that help to maintain health and prevent the spread of diseases. And also explained about Child abuse that it is physical, sexual, or psychological mistreatment or neglect of a child or children, especially by a parent or other caregiver. It may include any act or failure to act by a parent or other caregiver that results in actual or potential harm to a child, and can occur in a child's home, or in the organizations, schools or communities the child interacts with. They also encouraged the girls to talk and discuss this biological phenomenon and cleared their doubts on the topic.</p>

Summary of the Event	<p>The Education and R&D Portfolio conducted co-curricular activities for the students of class 10. The motive of the event was to emphasise on the essence of co-curricular skills as a part of education. Skills such as speaking and writing skills, general knowledge etc are integral to holistic development of Effective Communication Skills a child. On that note the team has conducted quiz and elocution competitions for the students of class 10. The school welcomed the team and supported us throughout the event. Both quiz and elocution were held separately for the Telugu and English medium students. The students were eager and excited to participate in the competitions. Every student was a participant in at least one event. They took part in the competitions actively. The session was highly interactive. Quiz consisted of two rounds. Five teams were selected in the prelims round and played in the finals. The winner and runner teams in Telugu as well as English quiz were awarded. Elocution also had two rounds. In the first round was a "just a minute" session in which few were selected for the final round. In the final round three students were awarded 1st, 2nd and 3rd prizes in the Telugu and English sections separately. On the whole the participation percentage was 100% and 14 prizes were given. The team also had continuous support and guidance of the faculty of the school in conducting the event. The executing team of the event was- Kezia, Manisha, Rani, Samrat, Keerthana and Vamsi. The event had a good response from the students. The subject of the event was justified and the motive fully accomplished.</p>

Summary of the Event	<p>Social impact department on the eve of GANDHI JYANTHI took the hearing impaired school students of balavikas education society to Birla planetarium and museum and 3D show, to promote Gandhi's principles to providing equal opportunities for everyone to develop irrespective of their physical strength, background, caste etc. On 1 st October 2016, we took 50 hearing impaired students from their school in kukatpally to Birla planetarium, museum and a 3D show. We showed students science gallery, that included various experiments and principles along with facts behind them followed by sculptures of different deities etc. Then we took students to planetarium where the kids were taken to a 3D show which lasted for 30 minutes about universe, stars, galaxies and solar system etc. Students got very much fascinated by this show and were highly attracted to space and it's vastness, this followed by a 3D show on life inside ocean. Then we showed them dinosarium with this our visit ended, the students were dropped in their school by 4pm. Through this visit the students came to know about stars, space, universe .This ended with a lot of memories both to the students and us. "The best source of Education is experience and experience is the teacher of all things" We thank Director of Birla Planetarium and Principal-GRIET for their kind support.</p>

Summary of the Event	<p>Students who shift from Telugu medium to English medium after finishing their 10th standard generally face a lot of trouble in understanding the subjects in their intermediate. The volunteers decided to teach and clarify the doubts and help them with their examinations. The event began at 10:00am and the volunteers started to explain the topics to the students and the students showed a great interest to learn the subject. The students were exposed to all the tips and tricks that could be helpful for their learning. The session was followed by a personal talk to women where they are given encouragement and empowerment talk so that they don't let themselves down in any situation. The foundation has both orphanage and an old age home. Few volunteers interacted with the people at the old age home. A healthy talk with them gave them the courage and stated their problems. The caretaker was instructed to maintain proper dietary plans for the old people. Lastly the team had an interactive session with students. Students asked the volunteers to visit again during weekends and continue the teaching sessions.</p>

Summary of the Event	<p>Street Cause Team visited Good Samaritans destitute home on Friday and spent caring time with them. Good Samaritans is consists of mentally handicapped people, destitute striving for their last breaths, drug abused, abandoned people on roads who are unable to move. Everyone in the home had a moving story. Volunteers felt emotional after they listened to their stories. As Good Samaritans is a NGO striving for destitute and bedridden people, there was high need for security cameras to take care both needs and safety of their home. As mentally handicapped are part of home, sometimes it happens that they go out missing. Also, visitors who come to home may act rude in home. To make sure safety and have easy access, George, Founder of Good Samaritans India requested to help them with CC cameras. He also enlightened volunteers that running a destitute home not just requires food and medicines but genuine care, medical and counseling treatment. He also suggested contacting him, if we find any destitute on road in severe condition. Volunteers had different experience spending time with people in home. They realized the sufferings of the people in the very society they are living in. They are not going to lead the same life tomorrow. They are now aware, moved and changed with this experience. They say Sharing and giving is the responsibility that should be implemented in one's life.</p>

Summary of the Event	<p>The objective of this event is to upgrade the school's infrastructure. This event made possible renovations in the school and has developed a clean environment for the students. All the members who took up the event exhibited an active participation and strived hard for the development of the school. The whole development program lasted for a period of 5 days. Day 1 (9 Aug 2016): The very first day of the program has been started with the clearing of the dust using broomsticks. Then the volunteers were engaged in resolving the sewage water leakage problems. After this, they worked on the existing plantations in the school by levelling the ground and watering them. Day 2 (10 Aug 2016): On the second day of the program, the volunteers have dealt with the school entrance board and the gate which was previously in bad condition. The volunteers painted the name board and the gate. Day3 (11 Aug 2016): On the third day of the program volunteers have painted the classrooms followed by an interaction session with the students in the school. Day4 (13 Aug 2016): The places that need to be renovated have been keenly inspected by the volunteers on the prior hand. The flooring works in the school are conducted under the guidance of Vice-President of the department. After finishing flooring, volunteers helped faculty for decorating the school for Independence Day. Day5 (15 Aug 2016): On the day of Independence Day, all the volunteers have reached the venue by 8:30am and participated in the flag hosting ceremony followed by the speeches of the guests and the Head Mistress of the school. After the speech, all the students assembled together and volunteers have distributed chocolates, biscuits to the students. All the students were happy to celebrate Independence Day with the Street Cause Team. The event ended at 12pm</p>

Summary of the Event	<p>Documentary screening has been done in Nizampet where the children from 4th,5th & 6 th have been shown the following videos: Short film from Abdul Kalam's biography .Educational video on global warming.A video on national symbols A quiz was conducted based upon the videos and the students were given some prizes and refreshments. This event proved very useful for students in encouraging them to participate and interact actively. The students have learnt some useful information which is helpful to them in future as they watched to the videos very curiously. In this event the children were very enthusiastic to see the videos and learn new things and they were curious energetic and sportive in giving answers to the quiz</p>

Summary of the Event		Engineering Expo is a project expo conducted on 2nd August 2016 by the Education and R&D department of Street Cause, GRIET. Projects of all the branches of Engineering in GRIET were exhibited in this event. Students of secondary school from Zilla Parishad High School and Ganges Valley School were invited to visit the Expo. A total of 27 projects were exhibited and 240 school students had visited the Expo. the students were given demonstrations and an overview of the projects and they were also				

	<p>taken to see the college laboratories. The projects displayed included DIY Solar Panel, Robotic car, Electronic Stethoscope, various apps, pedal operated mixer, accident detection system and many more. The prime motive of this event was to give the school students an overview of what engineers do and how each branch is different from the other. This would give them a glimpse of what might be their career one day and a better exposure in considering engineering as a career choice. The students who visited were shown working models of various kinds. The participants who displayed their projects got a platform to showcase their handiwork and share their ideas. They watched and listened with awe and interest and raised an array of questions out of their curiosity. They were delighted to witness the works of engineering students. The participants who displayed the projects participated with enthusiasm and were pleased to share their innovative ideas and explained their projects with a lot of interest. The efforts of all the organizers and volunteers were paid off when the school students and the participants left a positive feedback before the event ended.</p>

Summary of the Event	<p>Environmental awareness is to understand the fragility of our environment and the importance of its protection. Promoting environmental awareness is an easy way to become an environmental steward and participate in creating a brighter future for future generations. It is an integral part of the movement's success. By teaching our friends and family that the physical environment is fragile and indispensable, we can begin fixing the problems that threaten it.</p> <p>On the day of "World Environment Day" the Environmental Portfolio team of Street Cause took up an awareness session on environmental conservation and its necessity for future generations to class 10th students at PSS trust, Miyapur.</p>

Summary of the Event		According to the statistics, a woman who is only 21 years of age has a 25 percent risk of suffering violent crime in her life. They always cannot rely upon others to protect them. Thus defending herself by fighting back is the most ethical decision she can make. Every women uses all the force and energy she has when she is in danger but still unable to escape. So the main aim of the event is to try to help them to streamline their energy with simple techniques in order to get out of danger. Team Street Cause conducted a self defence				

	session at Triveni Hostel for girls, Nizampet which covered defensive concepts and techniques for various type of assault, stalkers and predators, coping with fear by utilizing easy, effective and proven self-defence/martial arts tactics. As the cyber crimes are increasing the team also discussed with the girls on how they can prevent themselves from getting into such issues.

Summary of the Event	<p>Task Details: The volunteers of STREET CAUSE-GRIET conducted a self-defense and awareness session. Some of the volunteers showed Self Defense Techniques used to counter an immediate threat of danger which will help every girl and women to move in public fearlessly and can protect themselves. Sometimes, a woman encounters situations where prevention is not 100% effective and thus defending herself is the final recourse. This Session also includes "talk" on:</p> <ol style="list-style-type: none"> 1. Various mobile Apps for personal safety, which can be easily downloaded. 2. Health issues which are ignored frequently which lead to major problems. 3. Personal Security. <p>Some of the self-defense techniques included-</p> <ol style="list-style-type: none"> 1. Hair pull front 2. Hair pull-back 3.Rear bear hug defense 4. Lapel grab 5. Wrist grab 6. Wrong route diversion <p>After the session, the team emphasized on building a healthier body and mind when it comes to forming the right attitude. The participants found the session to be practical and informative. The session ended at 2pm.</p>

Summary of the Event	<p>Augmenting the beginning of a season of festivals, Sankranti is a major Hindu festival. This is a harvest festival and is known to be the only kind of festival in India which falls on the same date every year. On the first day, prayers are done for providing rain for harvest. On the second day, Pongal (sweet rice dish) is offered to the sun. The celebrations began on a high note as the boys engaged themselves in the very well-known competitive event, kite flying. The boys gathered outside, ecstatic, watching their colorful kites soar high amongst others. In the midst of all cheer, the cynosure of all eyes was the Rangoli/ Kolam event participated by all the girls in the orphanage. The children unleashed their inner potential and brought out aesthetic designs and intricate patterns. The children didn't mind getting their hands dirty to help their fellow mates bring out the best design. The event ended with an interaction session as the volunteers entertained the children with singing and dance performances with all the children joining at their favorite songs. The volunteers gave the children note books, fruits to all students and toiletries for girls and enquired the children of their needs. The children grew fond of the team and wanted the team to visit them again. On the whole, it was one day to remember.</p>

Summary of the Event		<p>This event is to bring an awareness to people on being eco-friendly by riding a cycle and reusing plastic. We did this event at Necklace Road on 14.08.2016. Event started at 6:00 AM and ended by 9:30 AM. According to a study it was found that passengers in buses, taxis and cars inhaled substantially more pollution than cyclist and pedestrians. On average, a passenger is exposed to more than 100,000 - 10,00,000 ultrafine particles which can settle in the lungs and damage cells - per cubic centimeter. Cyclists, meanwhile, were exposed to just 8,000 ultrafine particles per cubic centimeter. So to bring an awareness of this we did cycling, and we promoted RE-USE of plastic by making pots with used water bottles by gifting a sapling with those handmade pots.</p>

Summary of the Event	<p>Every child, on reaching class 10, begins to worry about the career he/she is going to follow. Making the right career choice at the right time is of primal importance because of the ruthless competition and the ever-rising unemployment. The result of a prolonged decision might have an adverse impact in his career, mental health and happiness. The problem must be addressed at the school-level itself. This calls for guidance, to help every student their career, understand their skills, talent & potential and introduce them to a window of opportunities available to them after 10th &12th and solve the problem of management of human resources, to an extent, in our country. The volunteers that addressed the gathering shared stories of their journeys to their careers. The volunteers discussed the exams they undertook for engineering, the fee spent on admission, branches available in engineering</p>

Summary of the Event	<p>The calculator is a handy device to perform quick and complex mathematical computations. This brilliant invention allowed students to study mathematical concepts they could not attempt if they had to perform the related calculations themselves. It also allowed students who would normally be turned off to math because of frustration or boredom to increase their mathematical understanding. In an attempt to increase interest towards mathematics and encourage analytical thinking among students, the team of STREET CAUSE GRIET conducted a demonstration on the several operations on the calculator, making students spend less time on tedious calculations by teaching useful tricks to extract the device to its fullest. Following was a practice session where the students put their acquired strategies on the device to solve given problems. Following the practical session, the volunteers conducted an interactive career guidance session where the students asked questions to get clarity on their future goals. The volunteers addressed their doubts patiently. On the whole it was a very interesting session</p>

Summary of the Event		The idea of GREEN ENGINES emphasizes on practicing road-safety and effectively influence the behavior of road users. Going green by practice, has helped save a lot of money and resources. Yet, there is an issue with getting more people to do it. Road safety slogans are important part of reaching this aim. The proactive team of Street				

	<p>Cause GRIET gathered at Gachibowli road at 9:30 am with slogan boards with messages to be conveyed to the community at large. The one-hour event started off with our Street Cause volunteers stressing the need to inculcate self-discipline among road users by way of constant reminders-to wear helmet, turning off the engine when the traffic light changes to red thereby save fuel, adhere to speed limit and fasten seat belt, use public transport - through road safety slogans. Also, drivers who turned off their engine were given a token of appreciation- Tulsi Plants</p>

S.No.161 Green Diwali event conducted to create awareness for celebrating ecofriendly Diwali in DAV Public School, Miyapur on 4 Nov 2015 and Green Cycle Event on 1st Nov 2015 at Necklace Road.

Campus happening

Students champion a green Diwali

Diwali, the festival of happiness and the joy in facts! Exchanging sweets, gifts and lights is the best part of this festival. But for many people, burning fire crackers is the last part of Diwali. Over the years we see how when the festival of lights has become a festival of sound and disturbance. The lighter the sparkles, the more the noise the greater the 'Dhul'! In fact, many of us, these auditive forms of light seem so appropriate and most essential when celebrating the 'Festival of Light'.

This Diwali, the students of Great Griet (Griet Group of Institutions of Engineering and Technology) took up the initiative to spend Diwali in an eco-friendly and a safe Diwali. A diwali event was conducted at DAV school, Miyapur on 4th November 2015 in which various activities were held such as drawing, essay writing competitions and an interactive session on 'Safe Diwali' with the middle school students.

A craft session was also conducted for students of 8th and 9th grade, where the art teacher taught how to make paper lanterns and diwali decorations. An alternative for the harmful crackers all the students were taught to make PAPER FIREWORKS to make this an eco-friendly Diwali.

The students were given an opportunity to express their views on an environment-friendly Diwali where the students prepared interesting and innovative ideas to celebrate the festival of lights in a beautiful way.

All students took an oath to protect our planet Earth from pollution every Diwali. The students actively participated in all competitions and presented their ideas through their drawings and songs which were...

Summary of the Event	<p>The volunteers of STREET CAUSE-GRIET visited the old age home at SIVANANDA REHABILITATION CENTRE to interact with the older citizens and spend time with them.The session took place around 10 a.m, when the volunteers got together with the adults. The volunteers came up with some singing and dancing activities, while the old ones spoke about their daily lifestyle at the home and their past life experiences. The pleasant climate and ambience at the home, made the atmosphere peaceful and soothing. The old people were so delighted to see the volunteers, that they forgot their sorrows and had a great time with them.Fruits and biscuits were also distributed.The event, on a whole, took place for about two hours and the volunteers promised to keep meeting them frequently, for they brought back the child in them.</p>

Summary of the Event	<p>The thrust areas to achieve the above are two-fold; one, initiatives in notified forest areas, and the other, initiatives in areas outside the notified forest areas. The first objective is sought to be achieved by a multi-pronged approach of rejuvenating degraded forests, ensuring more effective protection of forests against smuggling, encroachment, fire, grazing and intensive soil and moisture conservation measures following the watershed approach. Major fillip is sought to be given to Social Forestry for achieving the second objective. In the areas outside the notified forest, massive planting activities will be taken up in areas such as; road-side avenues, river and canal bank, barren hill, tank bunds and foreshore areas, institutional premises, religious places, housing colonies, community lands, municipalities, industrial parks, etc.</p>

Summary of the Event	<p>With the increasing need of healthy lifestyle yoga started to become a part of most of the individual's routine. In Fact, the world celebrates international yoga day on 21st June every year. This year Street Cause-GRIET celebrated yoga day at Zilla Parishad Unata Patashala govt school. We did the event in this school in order to build the bond we made. Also, the event helps us to have a follow-up for the previous events we did and to spread the importance on the health benefits of yoga. The event started at 10:00 in the morning and was completed by 11:30. We had a professional yoga instructor Ms. Anjali to teach the students important asanas and to give a speech on the importance of yoga in day to day life and the significance of International Yoga Day</p>

Participants (Teaching Faculty / Non-Teaching Faculty / Students)	No.of Faculty	No. of UG students	No.of PG Students	No.of outside participants	Total Participants
	5	475	20	-	500
Summary of the Event	<p>People are unaware of the damages caused by use of Ganesh idols made of Plaster of Paris and the chemical paints used on them for decorative purposes. To bring awareness and make this festival ecofriendly by using clay and non-hazardous materials in sculpturing of LORD GANESH idols an event was conducted on 03-09-16 at GRIET exclusively for 1st years. The event started at 11am and ended by 4pm. Ganesha is the lord of power and wisdom. He is worshipped first before any auspicious work. Ganesha Chaturthi was just round the corner we made an attempt to spread the awareness on ‘Going Green’ about the way we celebrate this festival. Majority of the people who celebrate Ganesha festival bring home the ‘painted’ idols made of Plaster of Paris (PoP) and perform rituals with devotion. The festival concludes with ‘Ganesh Visarjan’, a process of immersing the idol in a river. Unfortunately not all cities are blessed with a river/sea in the proximity. Because of this, various ponds, lakes and other water sources are used to see-off the god. Since the paint material used to color the idol contains ‘Lead’, this is toxic in nature. PoP too gets dissolved slowly and increases the acidity of water and thus water is polluted when the idol is immersed. This adversely affects the environment and there have been reports of dead fish in the water source where the idols are immersed. Now that we have understood the problem, solution is pretty simple. Go for Ganesha idols made of natural clay which are not painted. This will not only be environmental friendly but saves our ecosystem as well. Each and every student participated actively at Green Ganesha event. Everyone was so delighted to take the clay Ganesha. Amount Spent: Clay 25kg - 180/-</p>
