TEAM SPIRALS' LIT WEEK-DEBATE

INTRODUCTION

Debate is a process that involves formal discourse on a particular topic. In a debate, arguments are put forward for often opposing viewpoints. It is a formal type of discussion, and often includes a moderator along with an audience. Logical consistency, factual accuracy, and some degree of emotional appeal to the audience are elements in debating, where one side often prevails over the other party by presenting a superior "position" on the issue. Modern debating contexts include rules for participants to discuss and decide upon the framework of the debate (how the debate will be judged).

RULES TO BE FOLLOWED BY ALL DEBATERS:

During the proceedings of the debate the registered members are expected to abide by certain rules and regulations. They are as follows:

- The participants shall log in to the debate session with the roll number given to them, followed by their name.
- Participants will be muted upon their entry into the session. If a participant wishes to speak then, he/she must drop their number in the chat box to the moderator.
- Always acknowledge the Moderator before speaking, not doing so will result in losing marks.
- Participants are expected to have a good uninterrupted network connection, so that they can have a complete experience of the debate. In case of unexpected disconnection from the debate session, the participants can contact the technical support member of our team to re-join the session.
- Usage of unparliamentary language is strictly prohibited. The participants will lose their marks if any usage of unparliamentary words is found by the moderator/jury.
- Once the moderator requests a participant to stop making their point, they can no longer continue speaking their points.
- The participants must submit the proofs to the Jury if they state any statistical data or cite statements from a particular source.
- The participants can also share their screen to explain statistical data like flowcharts/bar graphs/pie-charts, by requesting the moderator to do so.
- If a particular member feels that his/her point is misunderstood or is going unheard, they can use the chat box/vote hand option and convey the same to the moderator.
- The members can choose to speak in either English, Hindi or Telugu.
